## DID THOSE SNOW BIRDS TAKE ALL THE NUTS SOUTH?

By Jackie Deal

Hey, Folks, did you know that October is SQUIRREL Awareness & Appreciation Month? Honest! There is even a web site and a "Squirrel Lover's Club." For only \$38 a year you get a bi-monthly newsletter and even a member's card! And furthermore, UC Berkeley has done extensive research on, yes,

squirrels and their behavior and habits. They considered "squirrel decision making processes", No - they didn't wire them to EEGs - they "observed" and concluded that squirrels may hide thousands of nuts a year and remember where they are. Also, squirrels cache their food in separate areas according to the kind of nut or seed.

So next time you watch our squirrels with their beautiful silvery-grey tails be impressed not just with their beauty but with their keen mental ability. Speaking of which, I will soon head South, to join those nuts from Timber Valley. So, if you have "news" to be reported in this publication (or the Trailer Tracks), please call or e-mail Rick De Young directly.

**TRUDY REEL'S NEW MAILING ADDRESS: %Marshall, PO Box 236, Melbourne, AR 72576 and new phone number is 870-368-7945**

### Clubhouse Refrigerator Protocol

Jacks & Jills Chair Joan Larson, sent this reminder:

Our clubhouse kitchen is equipped with two refrigerators. Procedures apply to both.

\* Items placed in the refrigerators are to be labeled indicating:

1. What is being stored
2. Date it is being stored
3. Event it is to be used for
4. A Check Box to indicate if anyone may help themselves to it
5. Name of person storing item

(Labels are supplied on each refrigerator door.

\* If you have led an event and have food leftovers, it is important to use the above described label, so that anyone checking will be advised to either leave it alone or consume it. Anything not labeled is fair game to be used or tossed.
