October 17 2020

Randy has a request. It is that when doing laundry you do not put your liquid detergent containers on top of the machines.

No matter how careful we are there are drops and drips that slowly make their way down the front of the machine and find their way into the buttons. That is where they become a real problem. They gum up the works, may even short out the buttons. To replace that button panel is a whopping \$500. We have expensive machines. Replacing parts and repairs is expensive. Please, Help keep repair costs down by not putting the containers on top of the washers.

A big Thank You goes out to Suzy Rupert,

She has painted all of the large rocks bright white.

This helps Timber Valley in so many ways. It looks so nice. It makes our park look well cared for.

When the normal dark, dreary, foggy days of winter arrive all drivers will say another "Thank you Suzy" as the white rocks safely keep us properly on the road. Even the rocks are happy

You have heard us ask you to sign up with the Alert Sense system but you have neither cell phone or internet. WELL, now you can sign up with a Land line phone. You will receive a regular phone call and a friendly robot will read you the message. If you are not home the robot leaves a message.

- QiGong 10am

October 17 Saturday

October 18 Sunday

- Ice Cream Social 3p

October 19 Monday

- Qi Gong 10 am
- Painting w/Ken 10:30

Now is the time for taking a deep breath, pause, relax. Stress! There is stress everywhere. We get it from worrying about Covid. We are tired of hearing what we can do or not do. We are worried for our family and friends. The Wild fires this year are extreme and we faced the possibility of being evacuated. We have been cooped up too long. The political climate and the pending election adds to the mix. Our nerves are worn and our tempers short. Remember that old proverb, "You reap What you sow" We can't let our stress and anger show. There is another proverb "Just Grin and Bear it" SMILE, Pass it on.

**ME WALKING BACK
TO THE CAR**

**CAUSE I FORGOT
MY FREAKING MASK**

Water, Water Everywhere, but not in our park. We will be without water for a day, in a week or so, as work is done on our water system. Now is the time to make sure you have extra drinking water stored. Don't forget to have water on hand for dishes, washing up and cleaning as well. The work should be completed in one day, but just in case prepare for a few days. An alert will be sent out when the exact time is nailed down.

Helaine Says..... Stop the presses....Beginning with this issue The Log will be published every other week. I looked at the calendar and saw that my 2 and 4 Wednesday of the month was leaving too many days uncovered. The next issue will be out October 21.

The Communications Committee has policed the bulletin boards and cleared away the outdated or wrongly placed notices. Each bulletin board has its own purpose written out on a card posted in the center of the board. Please, keep your signs no larger than 4x6 inches. There are proper size cards in the mail-room. Please date your card. Remove your cards when appropriate or after one month, whichever comes first.

Notices should not be placed on the door windows without approval from the Office staff. The doors are for **IMPORTANT** notices, covid, road closures, office closing, cancellations. There must be clear sight to the inside as well as the outside. It is a safety issue
