To All Our Fellow SKPs:

Words cannot express how grateful we are for your support following the catastrophic event that struck our Co-op on April 27th.

We are slowly bringing an end to the chaos and putting our lives back together again. About 90% of the RVs have been totaled, including all the rigs in the storage area, as well as many of the sheds suffered severe damage. Most of us have been working diligently with their various insurance companies to get new RVs and schedule contractors to repair sheds.

Our beautiful Clubhouse took a real beating as all the windows on the north side were blow in, letting in huge amounts of rain and 6" hail. Our library was inundated with water so all the books have to be dried out and the carpet had to be removed. So your generous gifts will be used to help restore the Clubhouse and the office again.

I cannot believe all the volunteers, both locally and from afar, who came to help get broken windows and roof vents covered to prevent further rain damage. They arrived not only with tarps and duct tape, but also rakes and bags to clean up the extensive debris. Then there were the folks who came with food staples and hot meals to help us through the first few weeks. We are so grateful for all the wonderful people who selflessly gave of themselves to help us in our time of need.

Again, thank you for your generous support and how lucky we are to have SKPs who truly "care and share".

**Kay Markle, President
LSC Board of Directors
On behalf of all the Members of the Lone Star Corral**
