

# Social Hour

## September 16th 3pm

Remember the Ouija boards. They were fun to play with but that's all they were.

Then I remember going to a fortune teller who told me I was going to have a son. 3 years later I had a surprise pregnancy and totally planned on a little boy. I had a girl. So much for fortune tellers!!

I went to a palm reader who showed me how I was to have 2 children. I have 3. Then she showed me that I was to have a serious illness. Now I'm 90 and continue to receive great medical reports.

I'm sure you have heard about Tarot Cards. Those who do not understand may believe they are a "divination" system. Tarot is not used to tell the future but rather a psychological tool and a map of human experience. It is a way to get insight into what's happening in our lives.

Jane Perkins will be at the Social Hour on Friday 16th to do a few readings. If you are interested please come. Bring light snacks (wine will be available) and listen or have the experience or watch another's.
