HAVE YOU HAD THE PLEASURE OF PLAYING CHAIR VOLLEYBALL?

Well, wait no longer. Come to the clubhouse Sunday afternoons at 1 p.m. to join in the fun. You don't need to sign up, just show up. You don't need to be a pro—none of us are. The entire game is played with players sitting in their chair, even a wheel chair will do. Not only is it fun, but it is good exercise as well. Give it a try and see for yourself. This is a case of the more the merrier. Ideally each side of the net would have 3 rows of 4 players. So far we haven't come close to that number, so we need YOU, and lots more like you. Several players have been showing up of late but not enough to make play even possible. Help us make it happen. There are rules but the only one we follow at this point is to stay seated. We do well to get a good volley going. It is played with a nice friendly beachball. Guys and gals both, come have a seat!

RANDY RETURNS !

Aren't we glad to have him back. He's not so sure he likes getting up at 6 a.m. to get here after being on sleep-in time during his recovery, but he'll get used to it.

**WELCOME
BACK**

PLANS ARE SOMETIMES DISRUPTED

Like last Wednesday when a great many of you were signed up and ready for soup for lunch and spaghetti for supper. A gas leak had to be repaired bringing cooking projects to a halt last week. But plan on enjoying both the soup and the spaghetti this week. Soup at noon and Spaghetti dinner at 4 p.m. Proceeds from the spaghetti will go to the Escapee CARE facility in Livingston. Be sure you're still signed up. And bring your place setting.

COMMITTEE MEETINGS THIS WEEK

MOVIE NIGHT
“ Dr. Strangelove”
January 26th

Show time: 5:30

As always, free popcorn

A must see film.. Dr,Strangelove or: How I Learned to Stop Worrying and Love the Bomb, a British satirical film released in 1964, that was director and cowriter Stanley Kubrick's landmark Cold War farce. It overcame a troubled production to become a film classic.

Set at the height of Cold War tensions, the story features a demented U.S. general (played by Sterling Hayden) who, frustrated by his sexual impotence, plans to launch a nuclear strike against the Soviet Union. Meanwhile, an eclectic group of political officials desperately try to avoid Armageddon. Peter Sellers played three roles in the film, including that of Dr. Strangelove, a weapons expert and barely reformed Nazi, and George C. Scott portrayed a hawkish general. The film was originally envisioned as a dramatic look at the Cold War (it is loosely based on the novel *Red Alert* by Peter George), but Kubrick felt it would be more effective as satire.
