HAPPY FATHERS DAY !

Come celebrate this special day with a BBQ Hamburger Lunch in the clubhouse with the patties grilled by Chef Denis. All of you fellas will eat free while the gals will please pay \$3 each or bring a salad or dessert side dish. We will honor a very special father who will be having a very special birthday that day as he turns 99 years off age.

You've probably guessed that this honoree is our own amazing Art Hampton. Show him your admiration for all that he does for us.

TESTING A CHANGE FOR OUR LAUNDRY PROCEDURE

At the 6/15/2023 Open Board Meeting, the Board voted to do away with the signup list during the month of July to test how smoothly things run without it. While there were audible "no's" from many in attendance, it may be exactly what is needed. The signup list was put into place during the Covid Pandemic to allow us to avoid exposure to others doing laundry at the same time. Thankfully, the Covid threat has passed. Some of us require only 1 or 2 machines per visit leaving the rest that could be used by someone else. Let's give it a try in July and see how it actually works. Remember it is only a test—if it turns out to be a problem after a month then back to the drawing board.

COMMITTEE MEETINGS THIS WEEK

Friday, June 23rd - 9 a.m. - **Landscape Committee** -meet at garden shed - all are welcome

FATHER GOOSE

On an island in the South Seas, Walter Eckland (Cary Grant) lives a quiet life. That changes when he's persuaded to serve as a lookout for the Allies, watching for enemy ships. Eckland, whose main interest is drinking, proves bad at his job and is sent to fetch a replacement from another island. Instead he finds a stranded teacher, Catherine (Leslie Caron), and her pupils. After Eckland brings the group to his island, romantic sparks fly between the prim schoolmistress and the slovenly loner.

WATER, WATER, WATER

We here in Timber Valley receive our water from the Sutherlin City treatment plants. The city has released their annual drinking water quality / consumer 'confidence Report. Hopefully this report will appear in full on our Timber Valley Web Site so you can learn what contaminants. may be in the water we drink Also, as we would expect, conservation of water is something we all must practice.

SUMMER HEAT WILL SOON BE UPON US

It will behoove each and everyone of us to practice common sense using our appliances as temperatures rise. Don't be the cause of popping breakers, etc. Check the power usage of each of your large appliances to realize which will be most likely to be a problem when used at the same times and when others are probably doing the same. Watch for and read a page of electrical information that you will be receiving in your mailbox soon.

Plan now to be here in the park for special Fourth of July Activities. Karen Hofferber has big plans we won't want to miss! 🇺🇸. 🇺🇸. 🇺🇸

THIS WEEK'S SOCIAL HOUR

Debbie Hamilton will be our speaker on Friday, June 23rd. She will give information on "Music Off Central."

It is great to have growing crowds at Social Hours of late. Keep it up!
