Emergency Prep This Week: Can You Get Out?

Brought to you by Your Emergency Preparedness Committee

You're inside your RV and the main door is blocked. How else could you get out?

Think about your emergency exit and your own abilities. Could you reach it, open it, and realistically use it?

But don't stop there. **What's on the other side?** An awning, outdoor furniture, or vegetation can make an emergency exit harder to use.

Something to try:

Check your emergency exit from **inside and outside**. **Open it**. Does it actually open? Review how it opens, then look at where you would come out.

You don't need to climb through it today. Your neighbors can find their entertainment elsewhere.
